Re: Records submission / claim reconsideration

Patient: HECTOR VALE · Member ID: GSH001234504

Claim: CLM-1004 · DOS: 2026-06-18

To the Claims Review Team:

Granite State Health Plan denied the referenced service under CO-16. RARC M60 identifies the missing documentation. Please reconsider the claim upon receipt of the attached signed Certificate of Medical Necessity. This request is limited to service line A0427 (2026-06-18), denied amount \$1275.00.

Decision basis

CO-16 (missing information needed for adjudication) with RARC M60 (Missing Certificate of Medical Necessity) on service line 1, HCPCS A0427, DOS 2026-06-18, denied amount 1275.00 with 0.00 paid and 0.00 patient responsibility. The group code is explicitly CO, so this is a payer-side denial, not patient responsibility, and it is not a duplicate (no CARC 18). The fact sheet lists no discrepancies and confirms the claim appears in both the ERA 835 and clearinghouse CSV with consistent CARC 16 detail; external attachment is likely required, consistent with the missing CMN. The correctable defect is the absent documentation, so the biller should assemble and submit the Certificate of Medical Necessity/supporting records packet (fax packet prepared, not transmitted by this application). No prior-authorization issue (CARC 197) is present, and no timeliness window is asserted here; 44 days since DOS is stated only as supplied context.

Please send the written determination to the provider address above. For questions, contact the submitting biller.

Sincerely,

Billing Department
