Re: Medical necessity appeal

Patient: ELEANOR BRAND · Member ID: GSH001234505

Claim: CLM-1005 · DOS: 2026-06-20

To the Claims Review Team:

We request reconsideration of the referenced service denied under CO-50. The enclosed clinical material supports the medical necessity of the ambulance service. Please reverse the denial or provide the specific coverage criteria that remain unmet. This request is limited to service line A0433 (2026-06-20), denied amount \$1620.00.

Decision basis

ERA 835 shows an explicit CO-group CARC 50 (service not deemed medically necessary) denying the full 1620.00 billed on service line 1 for HCPCS A0433 (ALS2 emergency transport), DOS 2026-06-20, with RARC N115 indicating the decision followed a Local Coverage Determination. CO group means provider liability from a payer denial, not patient responsibility (patient_responsibility is 0.00), so it is payer-recoverable via a medical-necessity appeal citing the LCD criteria supported by run report and clinical documentation; external attachment is likely required, so the packet is prepared for fax. No duplicate (CARC 18) and no missing-information CARC 16 is present, and no source discrepancies were listed (claim appears only in era_835, with no clearinghouse record to reconcile). Timeliness cannot be asserted as satisfied — only 42 days since DOS is noted and the payer's appeal window is not supplied — so the biller must confirm the Granite State Health Plan appeal deadline before submission.

Please send the written determination to the provider address above. For questions, contact the submitting biller.

Sincerely,

Billing Department
