Re: Records submission / claim reconsideration

Patient: ELEANOR BRAND · Member ID: GSH001234505

Claim: CLM-1005 · DOS: 2026-06-20

To the Claims Review Team:

Granite State Health Plan denied the referenced service under CO-50. RARC N115 identifies the missing documentation. Please reconsider the claim upon receipt of the attached signed Certificate of Medical Necessity. This request is limited to service line A0433 (2026-06-20), denied amount \$1620.00.

Decision basis

CO-50 (medical necessity denial) with RARC N115 indicating the denial followed a Local Coverage Determination, for HCPCS A0433 (ambulance ALS emergency transport) billed at \$1,620.00 with \$0.00 paid. Group code CO is explicit, so this is a payer-side denial, not patient responsibility. No duplicate (CARC 18) flag is present, and no discrepancies were listed in the computed data, so this can proceed. Since the denial rests on medical necessity/LCD criteria, supporting clinical documentation (e.g., run/trip report, patient condition, physician certification) should be submitted to demonstrate necessity per the LCD referenced. This is distinct from a missing Certificate of Medical Necessity (M60) scenario, but the same remediation path (submit_records) applies to contest a medical-necessity determination with clinical evidence.

Please send the written determination to the provider address above. For questions, contact the submitting biller.

Sincerely,

Billing Department
