Re: Medical necessity appeal

Patient: OLIVER FINCH · Member ID: GSH001234508

Claim: CLM-1008 · DOS: 2026-06-24

To the Claims Review Team:

We request reconsideration of the referenced service denied under CO-50. The enclosed clinical material supports the medical necessity of the ambulance service. Please reverse the denial or provide the specific coverage criteria that remain unmet. This request is limited to service line A0425 (2026-06-24), denied amount \$276.00.

Decision basis

Line 2 (HCPSC A0425, 12 units, \$276.00) was denied with explicit group CO and CARC 50 (not medically necessary), no RARCs provided and no discrepancies flagged. Group CO indicates a payer contractual denial rather than patient responsibility, so this amount is payer-recoverable via appeal, not billable to the patient. Since the payer's medical necessity determination lacks supporting documentation on file (no RARC like M60 citing missing CMN, and no external attachment noted beyond the flag that one is likely required), the appropriate action is to submit an appeal with supporting medical necessity documentation/records for the mileage/base charge line to contest CARC 50. This is not a duplicate (no CARC 18) and not a prior-auth issue (no CARC 197), so appeal is appropriate rather than retro-auth or duplicate verification. Confidence is moderate-high given explicit group/code but tempered by the likely need for additional records to support the appeal.

Please send the written determination to the provider address above. For questions, contact the submitting biller.

Sincerely,

Billing Department
