Re: Records submission / claim reconsideration

Patient: HECTOR VALE · Member ID: GSH001234504

Claim: CLM-1004 · DOS: 2026-06-18

To the Claims Review Team:

Granite State Health Plan denied the referenced service under CO-16. The payer cited remark code M60 (Missing Certificate of Medical Necessity). We are submitting the signed Certificate of Medical Necessity and ask that the claim be reconsidered on that record. This request is limited to service line A0427 (2026-06-18), denied amount \$1275.00.

Decision basis

CO-16 (explicit CO group, group_is_explicit=true) with RARC M60 (Missing Certificate of Medical Necessity) on service line 1, HCPCS A0427, DOS 2026-06-18, denied amount 1275.00 with 0.00 paid and 0.00 patient responsibility. This is a payer-side informational denial, not PR, and not a duplicate (CARC 18 absent). The missing item is specifically identified as the CMN, so the corrective path is a records submission packet rather than an appeal or retro-auth. Computed flags show the claim appears in both era_835 and clearinghouse_csv with no listed discrepancies, and external_attachment_likely_required=true, consistent with the M60 documentation gap. 44 days since DOS; no payer timeliness window is asserted here. No patient, member, payer, or attachment details beyond the supplied facts are assumed; this app prepares the packet only and does not transmit the fax.

Please send the written determination to the provider address above. For questions, contact the submitting biller.

Sincerely,

Billing Department
