Re: Records submission / claim reconsideration

Patient: OLIVER FINCH · Member ID: GSH001234508

Claim: CLM-1008 · DOS: 2026-06-24

To the Claims Review Team:

Granite State Health Plan denied the referenced service under CO-50. We are submitting the clinical records supporting the medical necessity of this transport and ask that the claim be reconsidered on that record. This request is limited to service line A0425 (2026-06-24), denied amount \$276.00.

Decision basis

ERA 835 shows claim CLM-1008 paid 1150.00 of 1426.00 with service line 2 (A0425, 12 units, billed 276.00) denied in full under explicit group CO with CARC 50 (service not deemed medically necessary). CO-group means the 276.00 is not patient responsibility (patient_responsibility is 0.00), so it is payer-recoverable. No CARC 18 duplicate and no prior-auth CARC 197 is present, so no duplicate check or auth-window question applies. No RARCs or payer reason text were supplied, and the item appears only in the ERA source (appears_in_both_sources=false, no clearinghouse ref/status); no discrepancies were listed. Medical-necessity denials on mileage are addressed with clinical documentation, and an external attachment is likely required, so the biller should assemble a records packet (trip report/PCS supporting medical necessity and loaded mileage) for submission; this application only prepares the packet. Confidence tempered by the absence of RARC/LCD detail explaining the necessity determination and the single-source record.

Please send the written determination to the provider address above. For questions, contact the submitting biller.

Sincerely,

Billing Department
